## Information Technology

### 2014 HCSD Summer Internship Program

#### Overview

An internship can be the perfect way to start a career! General Dynamics Information Technology's Health and Civilian Solutions Division is pleased to announce our 2014 Summer Internship Program. Our internship program will allow for work-based learning in conjunction with allowable academic credit. In addition, we aim to create an experience that will provide students insight into our industry and offer the guidance/mentorship to establish personal career goals and aspirations.

#### Program Structure

Our program is designed to provide the structure and organization of a daily work routine and monthly workshop for professional instruction and team building exercises. Professionals from within our various departments will participate to give students a specific and versatile perspective from an industry and 'real-world' point of view.

#### ***Professional instruction sessions and team building events include:***

*Professional Development Sessions*

*Internship Kickoff Meetings*

*Socials and Outings*

#### Intern Program POC:
