IBM Global Business Services

Job Title: Entry-level IT Specialist Consultant – Rocket Center

Job ID: GBS-0689214

IBM is now hiring entry-level IT Specialist Consultants for our IBM office in Rocket Center (Keyser), West Virginia (25 minutes south of Frostburg, MD). Relocation, US Citizenship, and the ability to obtain a security clearance are required.

We live in a moment of remarkable change and opportunity. The convergence of data and technology is transforming industries, society, and professions. Some of these professions did not even exist before data, cloud, social, and mobile. IBM Global Business Services is part of this transformation and just the place to define your career within business consulting. Join us as we make the most of these exciting times and discover what you can make of this moment.

What will you make with IBM?

At IBM Global Business Services Public Sector, we serve government, healthcare, education, and state and local clients through our Strategy & Analytics, Application Innovation Services, and Enterprise Applications service lines. Through cutting edge service offerings, we deliver real business value by:

- Bringing together the world's largest consulting practice with industry-leading research capability.
- Enriching business consulting with advanced research, analytics and technology.
- Teaming on all phases of engagement to plan, build, invent and implement business solutions.
- Establishing new, flexible and iterative approaches that only IBM can offer through our unique combination of skills, experience and capabilities.
- Leveraging proven roadmaps and frameworks we have developed across 17 industries.
- Applying IBM's global expertise and local capabilities through our unique global delivery network combined with our teams in over 170 countries.
- Providing an integrated approach to business design and execution—turning strategies into actions.

These strengths applied to business issues and opportunities give our clients not only the ability to anticipate change, but also take advantage of new possibilities.

What will you do as an entry-level IT Specialist Consultant?

As an entry-level IT Specialist Consultant, you will use your systems administration, security, networking, and programming skills to help design and develop technology solutions using the best tools, techniques, and products our clients demand today. You will work on projects that help our clients integrate strategy, process, technology, and information in ways that help modernize infrastructure, enable more efficient operations, promote accountability, and optimize performance. You will contribute right away to top-tier clients in collaboration with smart people in a dynamic team environment. Depending on your background, you may play one of the following roles in support of a project team: Developer, Systems Analyst/Administrator, Database Administrator, Security Analyst, Test Analyst, or Help Desk Analyst.

Over the course of your career, you will have an opportunity to build a powerful portfolio of interesting and rewarding experiences as you tackle the grand challenges that affect our society, such as climate change, energy production, traffic congestion and health care. You can do all of this at IBM -- a company that is leading a revolution in corporate citizenship, and that is at the forefront of tackling the grand challenges that affect our society, such as climate change, energy production, traffic congestion and health care.

What do we look for in a successful entry-level IT Specialist Consultant?

- Minimum 3.0 GPA. Above 3.0 strongly preferred.
- Demonstrated achievement in programming with Java, J2EE, .Net, C++, DB2, Agile, and/or other related languages, systems design/development, information assurance, and information technology coursework
- Strong leadership and adaptability, with willingness to readily and voluntarily take ownership of highly challenging tasks and problems, even beyond initial scope of responsibility
- Thorough and analytical, with capability to apply logic to solve problems
- Ability to handle multiple tasks concurrently and meet deadlines, while maintaining focus despite conflicting demands
- Drive to overcome the most challenging or difficult obstacles and look for ways to improve results
- Initiative to actively seek new knowledge and improve skills
- Effective interpersonal skills with ability to collaborate and team with others
- Ability to communicate complex situations clearly and simply by listening actively and conveying difficult messages in a positive manner
- Ability to write effectively, communicating complex messages or requirements clearly, simply, and concisely
- A passion for innovative ideas, coupled with the ability to understand and assimilate different points of view

Opportunities are also available for **Enterprise Applications Consultants** who will develop skills in one of our core ERP offerings – Workday, Curam, Oracle, or SAP. Please review our other campus postings or search on ibm.com/start.

Additional information

Most project assignments will be based at the Rocket Center office and will not require travel. However, all candidates must be willing and able to travel based on project needs. Travel requirements may vary but could be up to 100%. Candidates are not able to refuse projects based on travel.
